## DOUBLE COATED POLYPROPYLENE TAPE: Clear

### DESCRIPTION:

EZ1000 PSA is a high performance transparent PP film (2.2mil thick) coated on both sides with age resistant modified Super High Tack Acrylic Adhesive. This product is wound on a Gold siliconized paper release liner. The adhesive system of this double coated tape is extremely aggressive, ensuring permanency of the bond, even when exposed to the elements. It bonds well to nearly all materials - even bonds well on textured, rough surface materials. It also has very good temperature resistance.

### APPLICATIONS:

- Used for Mounting of plastic and wooden trims
- Fabrication of heavy decorative materials and displays
- Mounting of transparent signs and scales
- Bonding vinyl decals, attaching rubber profiles to appliance housing
- Attachment of plastic corner guards or extrusions

### PHYSICAL PROPERTIES:

Backing	Clear PP film
Adhesive	Modified Acrylic Adhesive
Film Thickness	2.2 mil
Total Thickness	8.6 mil (exclusive of liner)
Adhesion to SST	120 oz / inch
Elongation	175%
Shear Resistance	Excellent (Static & Dynamic)
Temperature Resistance	Up to 180°F (120°C) Long Term; up to 260°F (160°C) Short Term at 68°F and 50% relative humidity
Shelf Life	Two (2) years at 68 degrees F and 50% relative humidity

**NOTE:** The physical properties listed above are typical test results obtained from a series of laboratory tests and should not be used for the purpose of writing specifications. Before using this product, user shall determine the suitability of the product for his/her use; and user assumes all risks and liabilities in connection therewith. All test procedures used are in accordance with ASTM and PSTC methods.
